

Live Project Briefs

HR Analytics Consultants

1 project curated for the Human Resources track.

Role	HR Analytics Consultants
Projects	1

A light, structured handbook for understanding expectations, planning work, and preparing the final live project submission.

PROJECT TOOLKIT

Live Project Guidelines

Core guidance students should review before working on any live project.

General Guidelines for Live Projects

1. **Individual or Group Participation:** Students may complete the project individually or form a group of up to **four (4) members**. Group formation is entirely at the students' discretion; however, **all group members must belong to the same college/institution**.
2. **Weekly Project Reviews:** Students are expected to attend and follow the instructions, guidance, and action items shared by the Project Manager during the weekly live project review sessions.
3. **Self-Paced Learning:** This is a **self-paced Live Project**, and no strict weekly deadlines have been assigned to accommodate students' academic commitments. However, students are strongly encouraged to maintain consistent progress and actively participate throughout the project to maximize their learning experience.
4. **Recommended Time Commitment:** Students should dedicate approximately **2-3 hours per week** to successfully complete the project and achieve the intended learning outcomes.
5. **Project Report Submission:** Upon completion of the project, students must prepare a comprehensive **Project Report** in either **Microsoft Word (.doc/.docx)** or **PowerPoint (.ppt/.pptx)** format for evaluation. There is **no prescribed page or slide limit**. Students are encouraged to demonstrate originality and creativity by designing their own report structure and presentation format.
6. **Project Completion & Certificate:** There is **no fixed deadline** for submitting the Live Project report. Students may submit their project at any time after completing all the required work. Upon successful evaluation, the **Live Project Completion Certificate** will generally be issued within **3-4 working days**.
7. **Project Selection:** Students may choose **any one of the available Live Projects**. Those enrolled in multiple project roles may either work on all projects simultaneously or complete them sequentially, based on their convenience.
8. **Group Submission Policy:** For group projects, all team members must work on a common project report. However, **each member is required to submit the report individually through their own LMS account** to be eligible for evaluation and certification.
9. **Submission Process:** **All project submissions will be accepted exclusively through the LMS Portal**. Reports submitted via email, WhatsApp, Google Drive links, or any other platform will **not** be considered for evaluation.

**PROJECT TOOLKIT****How to Start your Project (4-week Framework)**

Suggested weekly rhythm for planning, analysis, drafting, and final submission.

Week-wise Roadmap for Live Project Completion**Important Note**

The following roadmap is a **recommended four-week learning framework** designed to help students approach the Live Project in a structured and industry-oriented manner.

Since this is a **self-paced project**, students who wish to complete the project earlier are welcome to do so. However, they are **strongly advised to follow the same sequence of activities (Week 01 -> Week 02 & 03 -> Week 04)** to ensure a systematic learning experience.

Students may accelerate the pace of execution but **should not skip or rearrange any stage of the project workflow**, as each phase builds the foundation for the next.

Week 01 - Market Research & Company Understanding**Objective**

The objective of Week 1 is to develop a comprehensive understanding of the company, industry, customers, and business environment before beginning the project execution.

1. Project Selection

- Review the list of available Live Projects under your selected role.
- Select one project that you wish to work on as your Live Project.

2. Company & Market Research

Conduct detailed research on the company from multiple functional perspectives to develop cross-functional business thinking. This will help you understand how different business functions contribute to solving real-world problems.

Your research should include:

- Understanding the company's objectives and core offerings
- Company Analysis
- Product & Service Analysis

- Website Analysis
- Website User Experience (UX) Analysis
- Customer Segment Analysis
- Competitor Analysis

3. Business Framework Analysis

Based on your research findings, apply relevant business and strategic frameworks to understand the company's current position and future opportunities.

Suggested frameworks include:

- SWOT Analysis
- PESTEL Analysis
- Ansoff Matrix
- Any other relevant strategic framework applicable to your project

4. Digital Landscape Research

Evaluate the company's online presence and digital positioning by conducting research on:

- Official website and digital assets
- Social media platforms
- Brand visibility and customer engagement
- Existing marketing strategies
- Competitor social media analysis
- Market gaps and potential opportunities

Week 02 & Week 03 - Project Execution & Deliverables

Objective

The objective of this phase is to solve the assigned business problem by applying your research findings and analytical skills.

Students should:

- Work on the project objectives and deliverables specified for their selected Live Project.
- Perform additional market research wherever required.

- Conduct data analysis and interpret findings.
- Brainstorm and evaluate multiple solution approaches.
- Develop practical, research-backed recommendations.
- Continuously refine the project based on insights generated throughout the execution phase.

This stage should focus on demonstrating:

- Problem-solving ability
- Strategic thinking
- Practical business recommendations

Week 04 - Final Recommendations & Project Report Submission

Objective

The final week should focus on consolidating all your work into a professional project report.

Students should:

- Prepare the final project report in either **Microsoft Word (.doc/.docx)** or **PowerPoint (.ppt/.pptx)** format.
- Organize the report in a logical and professional manner.
- Compile all research findings, analyses, project outcomes, and supporting evidence.
- Present actionable business recommendations and implementation strategies.
- Review and proofread the report before submission through the **LMS Portal**.

The final report should clearly demonstrate:

- Research methodology
- Analytical thinking
- Business understanding
- Recommendations
- Overall project outcomes

HR ANALYTICS CONSULTANTS

Project Details

Project 1

Designing a Performance Management & HR Analytics Framework for Skilled Sapiens

Company	Skilled Sapiens
Role Category	Human Resources

Project Brief

As an

HR Analytics Consultant

, your responsibility is to develop a structured performance management system that supports efficient monitoring, reporting, and continuous improvement of intern performance.

Objectives

The objective of this project is to design an HR analytics and performance management system that enables effective monitoring of intern performance and supports data-driven HR decision-making.

Action Items

Introduction

Managing large internship cohorts requires structured systems to monitor employee performance, productivity, sales outcomes, task completion, and team effectiveness. Skilled Sapiens intends to onboard large batches of interns and requires an efficient mechanism for monitoring daily activities and performance using dashboards and HR analytics.

This project focuses on designing a comprehensive performance management framework supported by Excel dashboards and HR analytics. Students will work as **HR Analytics Consultants**, developing monitoring systems, KPI frameworks, reporting dashboards, and performance review mechanisms.

Suggested Research Areas

- HR Analytics
- People Analytics

- KPI Frameworks
- OKRs
- Performance Dashboards
- Excel HR Reporting
- Workforce Analytics

Expected Learning Outcomes

Students will gain practical exposure to HR analytics, dashboard design, KPI development, workforce reporting, and performance management systems.

Deliverables

Performance Management Framework

Develop a structured framework for measuring employee performance using business and HR KPIs.

HR Dashboard Design

Design one or more Excel dashboards for monitoring attendance, sales performance, revenue, lead generation, task completion, productivity, deadlines, and team performance.

Performance Review System

Recommend modern performance review approaches, including continuous feedback, OKRs, KPI tracking, 360-degree feedback, and manager review mechanisms.

Reporting Framework

Develop templates for weekly and monthly performance reports with recommendations for leadership review.

HR Analytics Recommendations

Identify key HR metrics and suggest reporting mechanisms that improve workforce management and decision-making.
