

Live Project Briefs

Product & Brand Manager

4 projects curated for the Product track.

Role	Product & Brand Manager
Projects	4

A light, structured handbook for understanding expectations, planning work, and preparing the final live project submission.

PROJECT TOOLKIT

Live Project Guidelines

Core guidance students should review before working on any live project.

General Guidelines for Live Projects

1. **Individual or Group Participation:** Students may complete the project individually or form a group of up to **four (4) members**. Group formation is entirely at the students' discretion; however, **all group members must belong to the same college/institution**.
2. **Weekly Project Reviews:** Students are expected to attend and follow the instructions, guidance, and action items shared by the Project Manager during the weekly live project review sessions.
3. **Self-Paced Learning:** This is a **self-paced Live Project**, and no strict weekly deadlines have been assigned to accommodate students' academic commitments. However, students are strongly encouraged to maintain consistent progress and actively participate throughout the project to maximize their learning experience.
4. **Recommended Time Commitment:** Students should dedicate approximately **2-3 hours per week** to successfully complete the project and achieve the intended learning outcomes.
5. **Project Report Submission:** Upon completion of the project, students must prepare a comprehensive **Project Report** in either **Microsoft Word (.doc/.docx)** or **PowerPoint (.ppt/.pptx)** format for evaluation. There is **no prescribed page or slide limit**. Students are encouraged to demonstrate originality and creativity by designing their own report structure and presentation format.
6. **Project Completion & Certificate:** There is **no fixed deadline** for submitting the Live Project report. Students may submit their project at any time after completing all the required work. Upon successful evaluation, the **Live Project Completion Certificate** will generally be issued within **3-4 working days**.
7. **Project Selection:** Students may choose **any one of the available Live Projects**. Those enrolled in multiple project roles may either work on all projects simultaneously or complete them sequentially, based on their convenience.
8. **Group Submission Policy:** For group projects, all team members must work on a common project report. However, **each member is required to submit the report individually through their own LMS account** to be eligible for evaluation and certification.
9. **Submission Process:** **All project submissions will be accepted exclusively through the LMS Portal**. Reports submitted via email, WhatsApp, Google Drive links, or any other platform will **not** be considered for evaluation.

**PROJECT TOOLKIT****How to Start your Project (4-week Framework)**

Suggested weekly rhythm for planning, analysis, drafting, and final submission.

Week-wise Roadmap for Live Project Completion**Important Note**

The following roadmap is a **recommended four-week learning framework** designed to help students approach the Live Project in a structured and industry-oriented manner.

Since this is a **self-paced project**, students who wish to complete the project earlier are welcome to do so. However, they are **strongly advised to follow the same sequence of activities (Week 01 -> Week 02 & 03 -> Week 04)** to ensure a systematic learning experience.

Students may accelerate the pace of execution but **should not skip or rearrange any stage of the project workflow**, as each phase builds the foundation for the next.

Week 01 - Market Research & Company Understanding**Objective**

The objective of Week 1 is to develop a comprehensive understanding of the company, industry, customers, and business environment before beginning the project execution.

1. Project Selection

- Review the list of available Live Projects under your selected role.
- Select one project that you wish to work on as your Live Project.

2. Company & Market Research

Conduct detailed research on the company from multiple functional perspectives to develop cross-functional business thinking. This will help you understand how different business functions contribute to solving real-world problems.

Your research should include:

- Understanding the company's objectives and core offerings
- Company Analysis
- Product & Service Analysis

- Website Analysis
- Website User Experience (UX) Analysis
- Customer Segment Analysis
- Competitor Analysis

3. Business Framework Analysis

Based on your research findings, apply relevant business and strategic frameworks to understand the company's current position and future opportunities.

Suggested frameworks include:

- SWOT Analysis
- PESTEL Analysis
- Ansoff Matrix
- Any other relevant strategic framework applicable to your project

4. Digital Landscape Research

Evaluate the company's online presence and digital positioning by conducting research on:

- Official website and digital assets
- Social media platforms
- Brand visibility and customer engagement
- Existing marketing strategies
- Competitor social media analysis
- Market gaps and potential opportunities

Week 02 & Week 03 - Project Execution & Deliverables

Objective

The objective of this phase is to solve the assigned business problem by applying your research findings and analytical skills.

Students should:

- Work on the project objectives and deliverables specified for their selected Live Project.
- Perform additional market research wherever required.

- Conduct data analysis and interpret findings.
- Brainstorm and evaluate multiple solution approaches.
- Develop practical, research-backed recommendations.
- Continuously refine the project based on insights generated throughout the execution phase.

This stage should focus on demonstrating:

- Problem-solving ability
- Strategic thinking
- Practical business recommendations

Week 04 - Final Recommendations & Project Report Submission

Objective

The final week should focus on consolidating all your work into a professional project report.

Students should:

- Prepare the final project report in either **Microsoft Word (.doc/.docx)** or **PowerPoint (.ppt/.pptx)** format.
- Organize the report in a logical and professional manner.
- Compile all research findings, analyses, project outcomes, and supporting evidence.
- Present actionable business recommendations and implementation strategies.
- Review and proofread the report before submission through the **LMS Portal**.

The final report should clearly demonstrate:

- Research methodology
- Analytical thinking
- Business understanding
- Recommendations
- Overall project outcomes

PRODUCT & BRAND MANAGER

Project Details

Project 1

AI Product Strategy for Operational Optimization at Skilled Sapiens

Company	Skilled Sapiens
Role Category	Product

Project Brief

As an **AI Product Manager** at Skilled Sapiens, you have been tasked with identifying opportunities where Artificial Intelligence can improve business operations and enhance the learner experience.

Your responsibility is to understand business problems, research AI solutions available in the market, evaluate their suitability, and prioritize initiatives that deliver maximum value. Rather than building AI products, your focus is on **product discovery, market analysis, opportunity assessment, feature prioritization, and roadmap planning**.

The final outcome should be a strategic AI adoption plan that enables Skilled Sapiens to improve operational efficiency, streamline internal processes, and create better experiences for learners, mentors, and business stakeholders.

Objectives

The objective of this project is to identify, evaluate, and prioritize AI-powered product opportunities that can improve operational efficiency and enhance the learner experience at Skilled Sapiens.

Students are expected to:

Business Objectives

- Identify operational challenges that can be addressed using AI.
- Research AI products and emerging market trends.
- Evaluate AI use cases across different business functions.
- Prioritize AI opportunities based on business value and implementation feasibility.
- Develop a product roadmap for AI adoption.
- Recommend pilot initiatives aligned with business objectives.

Learning Objectives

By completing this project, students will learn how to:

- Conduct Product Discovery.
- Identify customer and business problems.
- Evaluate AI product opportunities.
- Prioritize features using product frameworks.
- Develop AI product roadmaps.
- Create Product Requirement recommendations.
- Present consulting-style product strategy reports.

Action Items

Introduction

As Skilled Sapiens continues to scale its Leadership Programs, Live Projects, Career Mentorship, Campus Connect, and Business Connect initiatives, there is an increasing need to improve operational efficiency while delivering a superior learner experience. Product Managers play a critical role in identifying business problems, evaluating emerging technologies, prioritizing opportunities, and defining product strategies that create measurable business impact.

Artificial Intelligence (AI) has the potential to transform how organizations manage customer support, content creation, learner engagement, CRM workflows, internal operations, and business intelligence. However, before implementing AI solutions, organizations must first understand where AI can create the highest value, evaluate available tools, prioritize use cases, and develop an implementation roadmap.

In this project, students will work as **AI Product Managers** responsible for identifying AI opportunities across Skilled Sapiens' products and operations. The project is focused on **product discovery, market research, product strategy, feature prioritization, and roadmap planning**, rather than developing AI models or writing code.

Suggested Research Areas

Students are encouraged to explore:

- AI Product Management
- Product Discovery
- AI Product Landscape
- Generative AI Applications

- Workflow Automation
- Customer Experience (CX)
- Product Prioritization Frameworks
- AI Adoption Strategy
- Product Roadmapping
- Business Process Optimization

Expected Learning Outcomes

By completing this project, students will be able to:

- Identify business problems suitable for AI-driven solutions.
- Conduct market research on AI products and platforms.
- Evaluate AI opportunities using structured product management frameworks.
- Prioritize product initiatives based on business value and feasibility.
- Develop AI product roadmaps and strategic recommendations.
- Present consulting-style product strategy reports aligned with business objectives.
- Build practical Product Management skills by solving real business problems through AI-enabled product thinking.

Deliverables

Deliverable 1: Product Opportunity Assessment

Identify operational challenges across Skilled Sapiens where AI can improve efficiency.

Possible areas include:

- Learner Support
- Mentor Management
- Lead Qualification
- Student Onboarding
- Project Evaluation
- Content Creation
- Email Marketing

- CRM Automation
- Internal Knowledge Management
- Analytics & Reporting

Students should identify:

- Existing process
- Current challenges
- Business impact
- Opportunity for AI

Deliverable 2: AI Market Research

Research leading AI products relevant to the identified opportunities.

Students should compare AI tools based on:

- Primary Use Case
- Key Features
- Target Users
- Integration Capabilities
- Pricing Model
- Advantages
- Limitations

Suggested categories include:

- AI Assistants
- Marketing Automation
- Content Generation
- Customer Support
- CRM & Sales
- Analytics
- Workflow Automation
- Productivity Tools

Deliverable 3: AI Use Case Prioritization

Develop a prioritization framework for proposed AI initiatives.

Students should evaluate each use case based on:

- Business Value
- Customer Impact
- Technical Feasibility
- Implementation Effort
- Cost
- Risk
- Scalability

Students may use prioritization frameworks such as:

- RICE
- ICE
- Impact vs Effort Matrix
- MoSCoW Prioritization

Deliverable 4: Product Requirements & Feature Recommendations

Prepare high-level product recommendations for the shortlisted AI initiatives.

Each recommendation should include:

- Problem Statement
- Target Users
- Proposed Solution
- Key Features
- Expected Benefits
- Success Metrics

This is not a software specification but a strategic product recommendation.

Deliverable 5: AI Product Roadmap

Develop a phased roadmap for AI adoption.

The roadmap should include:

- Short-Term Opportunities (0-3 Months)
- Medium-Term Opportunities (3-6 Months)
- Long-Term Opportunities (6-12 Months)

Students should justify the prioritization of each initiative.

Deliverable 6: Success Metrics Framework

Develop a measurement framework to evaluate AI initiatives.

Suggested KPIs include:

- Time Saved
- Process Efficiency
- User Adoption
- Customer Satisfaction
- Response Time
- Lead Qualification Accuracy
- Content Creation Productivity
- Operational Cost Reduction
- Employee Productivity

Deliverable 7: Strategic Recommendations

Prepare a final product strategy report summarizing:

- Business Problems Identified
- AI Opportunity Assessment
- Market Research Findings
- Prioritized AI Use Cases
- Product Recommendations
- AI Roadmap

- Expected Business Impact

Recommendations should focus on product strategy and business outcomes rather than technical implementation.

**Project 2**

Brand Identity & Brand Recall Strategy for Skilled Sapiens

Company	Skilled Sapiens
Role Category	Product

Project Brief

As **Brand Strategy Consultants**, your role is to evaluate the current brand identity of Skilled Sapiens and recommend strategies that improve brand recognition, consistency, and audience recall across its **Campus Connect** and **Business Connect** verticals.

Through market research, audience analysis, and competitor benchmarking, you will identify opportunities to strengthen the organization's brand positioning and communication. Your recommendations should focus on building a memorable brand experience that resonates with students, professionals, entrepreneurs, educational institutions, and business partners.

This is a research and strategy-focused project where the emphasis is on developing actionable recommendations rather than executing branding campaigns.

Objectives

The objective of this project is to evaluate the current brand identity of Skilled Sapiens and recommend strategies that improve brand recognition, consistency, audience engagement, and overall recall value.

Students are expected to:

Business Objectives

- Evaluate the current brand perception of Skilled Sapiens.
- Identify opportunities to strengthen brand identity and positioning.
- Develop a consistent brand messaging framework.
- Recommend communication strategies that improve brand recall.
- Suggest engagement initiatives that build stronger relationships with stakeholders.
- Define KPIs to measure brand awareness and engagement.

Learning Objectives

By completing this project, students will learn how to:

- Conduct brand research.
- Analyze brand perception and positioning.
- Develop brand identity frameworks.
- Create brand communication strategies.
- Design engagement initiatives.
- Measure brand performance using relevant metrics.

Action Items

Introduction

Skilled Sapiens is an ISO-certified consulting and experiential learning platform dedicated to preparing students, professionals, entrepreneurs, and organizations through Leadership Programs, Live Projects, Career Mentorship, and Business Consulting services. As the organization continues to expand across its **Campus Connect** and **Business Connect** verticals, building a strong and memorable brand has become increasingly important.

A strong brand is more than just a logo or visual identity—it is the perception, trust, and emotional connection people associate with an organization. While Skilled Sapiens has established a growing presence in the career development and consulting ecosystem, there is an opportunity to strengthen its brand identity, improve consistency across communication channels, and increase brand recall among its target audiences.

This project focuses on researching the current brand perception of Skilled Sapiens and developing strategic recommendations to enhance brand identity, messaging, communication, and audience engagement. Students will work as Brand Strategy Consultants to design a research-driven brand strategy that improves recognition, credibility, and long-term recall.

Suggested Research Areas

Students are encouraged to explore:

- Brand Identity and Brand Equity
- Brand Positioning
- Brand Recall and Brand Awareness
- Customer Perception Analysis
- Brand Communication Strategies
- Content Marketing
- Community Building
- Employer Branding

- Thought Leadership
- Competitor Brand Analysis

Expected Learning Outcomes

By completing this project, students will be able to:

- Conduct brand perception and market research.
- Analyze brand positioning and identify improvement opportunities.
- Develop brand identity and communication frameworks.
- Recommend strategies to improve brand recall and audience engagement.
- Design brand awareness initiatives and performance measurement frameworks.
- Present consulting-style brand strategy recommendations that support long-term business growth

Deliverables

Deliverable 1: Brand Identity Assessment

Evaluate the current brand identity of Skilled Sapiens.

The assessment should include:

- Brand Mission
- Brand Vision
- Brand Values
- Current Brand Positioning
- Brand Personality
- Brand Voice
- Existing Communication Style

Students should identify strengths, gaps, and opportunities for improvement.

Deliverable 2: Target Audience & Brand Perception Research

Research how different stakeholder groups perceive Skilled Sapiens.

Possible audience segments include:

- Undergraduate Students

- MBA Students
- Working Professionals
- Entrepreneurs
- Startup Founders
- College Clubs & Committees
- Training & Placement Officers (TPOs)
- Corporate Partners
- Mentors
- Alumni

For each audience, identify:

- Expectations
- Brand associations
- Preferred communication channels
- Factors influencing trust and engagement

Deliverable 3: Brand Positioning Recommendations

Develop recommendations to strengthen the positioning of Skilled Sapiens.

The framework should include:

- Brand Promise
- Value Proposition
- Key Differentiators
- Brand Messaging
- Emotional and Functional Benefits
- Positioning Statement

Deliverable 4: Brand Communication Strategy

Develop a communication strategy that creates consistent brand recall across all touchpoints.

Include recommendations for:

- Website
- Social Media
- Email Marketing
- Webinars
- Campus Outreach
- Business Networking
- Events and Workshops

Students should also recommend key messaging themes for different stakeholder groups.

Deliverable 5: Brand Engagement Strategy

Recommend initiatives that strengthen audience engagement and brand loyalty.

Possible initiatives include:

- Student Ambassador Programs
- Alumni Engagement
- Mentor Spotlight Series
- Success Story Campaigns
- Community Events
- Referral Initiatives
- Thought Leadership Content
- Industry Webinars

Deliverable 6: Brand Awareness Campaign Ideas

Develop high-level campaign concepts that improve brand visibility and recall.

Campaign ideas may focus on:

- Leadership & Career Development
- Live Project Success Stories
- Mentor Expertise
- Student Achievements

- Campus Connect Initiatives
- Business Connect Services
- Industry Insights
- Community Building

Students should briefly describe the objective and target audience for each campaign.

Deliverable 7: Brand Performance Framework

Design a framework to measure brand performance.

Suggested KPIs include:

- Brand Awareness
- Social Media Reach
- Engagement Rate
- Website Traffic
- Direct Website Visits
- Brand Search Volume
- Community Growth
- Event Participation
- Referral Rate
- Audience Retention

Students may present the framework using Excel, Google Sheets, or presentation dashboards.

Deliverable 8: Strategic Recommendations

Prepare a final consulting report summarizing:

- Brand research findings
- Audience insights
- Positioning recommendations
- Communication strategy
- Engagement initiatives

- Campaign recommendations
- Brand measurement framework
- Expected business impact

Recommendations should be practical, research-based, and aligned with Skilled Sapiens' long-term growth objectives.

**Project 3**

Enhancing Brand Identity & Brand Perception for Skilled Sapiens

Company	Skilled Sapiens
Role Category	Product

Project Brief

As a **Brand Strategy Consultant**, your responsibility is to evaluate the current brand identity of Skilled Sapiens and recommend strategic improvements that strengthen its market presence and customer perception.

You will conduct research on customer expectations, competitor branding, and existing communication practices to identify opportunities for enhancing the organization's positioning, messaging, and overall brand consistency. Your recommendations should focus on strategy and research rather than designing or executing branding campaigns.

The final outcome should provide a structured roadmap that enables Skilled Sapiens to build a stronger, more recognizable brand across its Campus Connect and Business Connect verticals.

Objectives

The objective of this project is to evaluate Skilled Sapiens' existing brand identity and recommend improvements that strengthen brand consistency, positioning, and customer perception.

Students are expected to:

Business Objectives

- Assess the effectiveness of the current brand identity.
- Evaluate existing brand messaging and positioning.
- Research customer perception and expectations.
- Analyze competitor branding strategies.
- Recommend improvements to visual identity and communication.
- Develop a framework for measuring brand performance.

Learning Objectives

By completing this project, students will learn how to:

- Conduct brand audits.
- Analyze brand perception.
- Develop positioning and messaging frameworks.
- Evaluate visual identity systems.
- Create strategic branding recommendations.
- Measure brand performance using relevant KPIs.

Action Items

Introduction

As Skilled Sapiens continues to grow as an experiential learning and consulting platform, maintaining a strong, consistent, and differentiated brand identity is essential for long-term success. With offerings spanning **Campus Connect** and **Business Connect**, the organization interacts with diverse stakeholders including students, professionals, entrepreneurs, educational institutions, mentors, and corporate partners.

A strong brand is built through consistent messaging, visual identity, and customer experience across every touchpoint. This project focuses on evaluating the existing brand elements of Skilled Sapiens and developing strategic recommendations to strengthen its positioning, communication, and overall market perception.

Students will work as **Brand Strategy Consultants**, conducting research on current branding practices, competitor positioning, and customer perceptions to recommend improvements that create a more recognizable and trusted brand.

As a Brand Strategy Consultant, your responsibility is to evaluate the current brand identity of Skilled Sapiens and recommend strategic improvements that strengthen its market presence and customer perception. You will conduct research on customer expectations, competitor branding, and existing communication practices to identify opportunities for enhancing the organization's positioning, messaging, and overall brand consistency. Your recommendations should focus on strategy and research rather than designing or executing branding campaigns. The final outcome should provide a structured roadmap that enables Skilled Sapiens to build a stronger, more recognizable brand across its Campus Connect and Business Connect verticals.

Students are encouraged to explore:

- Brand Strategy
- Brand Identity Systems
- Brand Positioning
- Brand Equity
- Brand Perception

- Customer Experience
- Visual Identity Best Practices
- Content and Communication Strategy
- Competitor Brand Analysis
- Brand Performance Measurement

Expected Learning Outcomes

By completing this project, students will be able to:

- Conduct structured brand audits and competitor research.
- Evaluate brand positioning and customer perception.
- Develop branding and messaging frameworks.
- Recommend improvements to visual identity and communication strategies.
- Design brand awareness and engagement strategies.
- Define relevant brand performance metrics.
- Present professional consulting-style branding recommendations supported by market research.

Deliverables

Deliverable 1: Brand Audit Report

Conduct a structured assessment of Skilled Sapiens' current brand identity.

The audit should evaluate:

- Brand Vision & Mission
- Brand Values
- Logo and Visual Identity
- Brand Personality
- Brand Communication
- Website Branding
- Social Media Branding
- Marketing Collateral

- Overall Brand Consistency

Students should identify strengths, weaknesses, and opportunities for improvement.

Deliverable 2: Competitor Brand Analysis

Research organizations operating in similar industries.

Compare competitors based on:

- Brand Positioning
- Visual Identity
- Messaging
- Website Experience
- Social Media Presence
- Content Strategy
- Customer Perception

Highlight opportunities where Skilled Sapiens can differentiate itself.

Deliverable 3: Brand Positioning Recommendations

Develop recommendations for strengthening Skilled Sapiens' market positioning.

The framework should include:

- Target Audience
- Brand Promise
- Unique Value Proposition
- Brand Personality
- Key Differentiators
- Positioning Statement

Deliverable 4: Brand Messaging Framework

Develop a consistent messaging framework for Skilled Sapiens.

The framework should include:

- Core Brand Message

- Value Proposition
- Key Communication Themes
- Tone of Voice
- Taglines
- Sample Brand Statements

Students should recommend messaging suitable for different stakeholder groups.

Deliverable 5: Brand Identity Recommendations

Recommend improvements to the visual identity of Skilled Sapiens.

Suggestions may include:

- Logo Usage Guidelines
- Color Palette
- Typography
- Iconography
- Imagery Style
- Social Media Templates
- Presentation Templates
- Marketing Collateral Consistency

Students are expected to provide strategic recommendations rather than redesign the assets.

Deliverable 6: Brand Awareness & Engagement Strategy

Develop recommendations to strengthen brand awareness and engagement.

Possible focus areas include:

- Social Media
- Website
- Email Marketing
- Thought Leadership
- Community Building

- Student Ambassador Programs
- Alumni Engagement
- Partnerships
- Events and Webinars

Students should recommend suitable communication channels and engagement initiatives.

Deliverable 7: Brand Performance Framework

Develop a framework to monitor brand performance.

Suggested KPIs include:

- Brand Awareness
- Social Media Reach
- Engagement Rate
- Website Traffic
- Brand Search Volume
- Community Growth
- Direct Website Visits
- Referral Traffic
- Customer Satisfaction
- Net Promoter Score (NPS)

Students may present the framework using Excel, Google Sheets, or presentation dashboards.

Deliverable 8: Strategic Recommendations

Prepare a final consulting report summarizing:

- Brand audit findings
- Competitor insights
- Positioning recommendations
- Messaging framework
- Brand identity recommendations

- Engagement strategy
- Performance measurement framework
- Expected business impact

Recommendations should be research-based, practical, and aligned with Skilled Sapiens' long-term branding objectives.

**Project 4**

Optimizing Skilled Sapiens' Product Portfolio Based on Market Needs

Company	Skilled Sapiens
Role Category	Product

Project Brief

As a **Product Strategy Consultant**, your role is to evaluate the current portfolio of Skilled Sapiens and recommend improvements that strengthen product-market fit and support business growth.

You will conduct market research, understand learner expectations, analyze competitor offerings, and identify opportunities to improve existing products or introduce new ideas. Your recommendations should focus on strategic decision-making rather than product execution or technical development.

The final outcome should provide a research-backed product strategy that enables Skilled Sapiens to continuously evolve its offerings and remain competitive in the experiential learning and consulting ecosystem.

Objectives

The objective of this project is to evaluate Skilled Sapiens' existing product portfolio and recommend strategic improvements that better align with market trends, customer expectations, and business objectives.

Students are expected to:

Business Objectives

- Analyze the current portfolio of Skilled Sapiens' programs and services.
- Understand customer needs and emerging industry trends.
- Identify opportunities for product enhancement and innovation.
- Evaluate competitor offerings and market positioning.
- Recommend improvements that increase product relevance and competitiveness.
- Develop a high-level product evolution roadmap.

Learning Objectives

By completing this project, students will learn how to:

- Conduct product market research.
- Analyze customer needs.
- Perform competitor benchmarking.
- Evaluate product-market fit.
- Develop product improvement recommendations.
- Create product strategy and roadmap documents.

Action Items

Introduction

Skilled Sapiens offers a diverse portfolio of Leadership Programs, Live Projects, Career Mentorship, Industry Certifications, and Consulting Services through its **Campus Connect** and **Business Connect** verticals. As learner expectations, industry requirements, and technology continue to evolve, these offerings must remain relevant, competitive, and aligned with market demand.

A Product Manager plays a critical role in continuously evaluating existing products, identifying market opportunities, understanding customer needs, and recommending product improvements that enhance customer value and business growth.

This project focuses on evaluating Skilled Sapiens' current product portfolio through market research, customer insights, and competitor analysis. Students will work as **Product Strategy Consultants** to identify improvement opportunities, recommend product enhancements, and develop a strategic roadmap for future product evolution. The project is research and strategy-focused rather than product development or execution.

Suggested Research Areas

Students are encouraged to explore:

- Product Management Fundamentals
- Product-Market Fit
- Customer Discovery
- Market Research
- Competitor Benchmarking
- Product Portfolio Management
- Customer Journey Mapping
- EdTech Industry Trends
- Learning Experience Design

- Product Roadmapping

Expected Learning Outcomes

By completing this project, students will be able to:

- Conduct product and market research using structured frameworks.
- Analyze customer needs and market trends.
- Evaluate product portfolios and identify improvement opportunities.
- Perform competitor benchmarking and product positioning analysis.
- Develop product enhancement recommendations and strategic roadmaps.
- Define product success metrics and performance frameworks.
- Present consulting-style product strategy recommendations that support long-term innovation and business growth.

Deliverables

Deliverable 1: Market Research Report

Conduct research on current trends in the EdTech, career development, and consulting industries.

The report should include:

- Industry trends
- Emerging learner expectations
- Technology trends
- Market opportunities
- Skill demand analysis

Deliverable 2: Customer Needs Assessment

Research the expectations of Skilled Sapiens' target audiences.

Possible customer segments include:

- Undergraduate Students
- MBA Students
- Working Professionals

- Career Switchers
- Entrepreneurs
- Startup Founders
- Corporate Clients

For each segment, identify:

- Learning goals
- Pain points
- Preferred learning formats
- Buying motivations
- Expectations from career development platforms

Deliverable 3: Product Portfolio Analysis

Evaluate Skilled Sapiens' current product offerings.

The analysis should cover:

- Leadership Programs
- Live Projects
- Career Mentorship
- Certification Programs
- Business Consulting Services
- Campus Connect Initiatives
- Business Connect Services

Students should identify:

- Product strengths
- Existing gaps
- Improvement opportunities
- Potential new offerings

Deliverable 4: Competitor Benchmark Analysis

Research organizations offering similar learning and consulting solutions.

Compare competitors on:

- Product Portfolio
- Pricing Strategy
- Learning Experience
- Certifications
- Technology Adoption
- Value Proposition
- Market Positioning

Highlight opportunities for differentiation.

Deliverable 5: Product Enhancement Recommendations

Recommend improvements for existing products.

Suggestions may include:

- Curriculum enhancements
- Learning experience improvements
- Technology integration opportunities
- Personalization features
- Certification improvements
- Community and mentorship enhancements
- New product ideas

Each recommendation should include expected business value.

Deliverable 6: Product Roadmap

Develop a high-level roadmap outlining future product priorities.

The roadmap may include:

- Short-Term Improvements (0-3 Months)
- Medium-Term Enhancements (3-6 Months)

- Long-Term Product Opportunities (6-12 Months)

Students should explain the rationale behind the prioritization.

Deliverable 7: Product Success Framework

Develop a framework for measuring product performance.

Suggested KPIs include:

- Product Adoption
- Enrollment Growth
- Customer Satisfaction
- Course Completion Rate
- Learner Engagement
- Repeat Enrollment
- Net Promoter Score (NPS)
- Customer Retention
- Revenue Contribution

Students may present the framework using Excel, Google Sheets, or presentation dashboards.

Deliverable 8: Strategic Recommendations

Prepare a final consulting report summarizing:

- Market research findings
- Customer insights
- Product portfolio assessment
- Competitor analysis
- Product enhancement recommendations
- Product roadmap
- Success measurement framework
- Expected business impact

Recommendations should be research-driven, practical, and aligned with Skilled Sapiens' long-term product strategy.
