COMPANY OVERVIEW

About Skilled Sapiens

Skilled Sapiens is a next-generation consulting firm specializing in Leadership Development, Talent Transformation, and Business Growth Solutions. We are committed to empowering students, working professionals, entrepreneurs, and organizations through a unique blend of Live Experiential Learning, Strategic Mentorship, and Business Consulting Services. Our ISO-certified methodologies focus on building real-world capabilities across functional domains including Sales & Marketing, Finance, Consulting, Product Management, Human Resources, and Entrepreneurship.

At Skilled Sapiens, we combine deep industry insights with a highly personalized approach to deliver measurable career, business, and organizational outcomes. Our consulting philosophy is rooted in customized learning paths, intensive mentorship, and strategic interventions, ensuring that every individual and business we engage with is equipped for sustainable success.

We currently operate across two major consulting verticals: Campus Connect Initiative and Business Connect Initiative.

Education Consulting Space

- Campus to Corporate
- Corporate to Corporate

Business Consulting Space

- DigiBrand
- Sapiens Incubation Centre

Under the educational consulting space, we focus on both Campus to Corporate and Corporate to Corporate consulting services. Our Campus to Corporate solutions prepare students and early-career professionals for corporate readiness through leadership training, experiential learning, profile building, and placement mentorship. We deliver end-to-end career consulting, from resume development and role-specific interview preparation to mock GD-PI sessions and off-campus placement support, ensuring a seamless transition from academia to industry.

Through Corporate to Corporate consulting, we work with mid-level and senior professionals seeking strategic career transitions. We offer tailored career coaching, skill enhancement programs, resume and LinkedIn optimization, targeted job search assistance, and access to leadership networking opportunities. Our goal is to help corporate individuals navigate complex career transitions, accelerate growth, and secure high-impact roles in new domains or industries.

The Business Connect Initiative at Skilled Sapiens extends our consulting expertise to entrepreneurs, startups, and growing businesses through two focused practices: DigiBrand and the Sapiens Incubation Centre.

DigiBrand, our digital marketing and brand consulting division, empowers startups, brands, and enterprises to build powerful, scalable online presences. We provide end-to-end digital solutions, including branding and

visual identity development, UI/UX website design, social media marketing, SEO, SEM, content strategy, email automation, performance analytics, UI/UX audits, and creation of corporate marketing collaterals such as pitch decks and brochures. At DigiBrand, we combine creativity with business strategy to drive digital growth and brand equity for our clients.

The Sapiens Incubation Centre offers strategic consulting to entrepreneurs, helping them transform ideas into investable, scalable businesses. We assist startups with market research, investor pitch creation, fundraising strategy, prototype testing, business planning, legal compliance, lead generation, tax advisory, and personalized case-specific mentorship through our flagship Start-hub Mentorship Program. Our incubation consulting practice is designed to help early-stage ventures navigate the challenges of entrepreneurship and build sustainable, future-ready businesses.

At Skilled Sapiens, we do not just train individuals or advise businesses - we partner with them on their journey to transformation. Our consulting engagements are outcome-driven, deeply collaborative, and tailored to the unique goals of each client, ensuring maximum impact across personal, professional, and business growth journeys.

PROJECT TOOLKIT

Live Project Guidelines

Core guidance students should review before working on any live project.

General Guidelines for Live Projects

1. **Individual or Group Participation:** Students may complete the project individually or form a group of up to **four (4) members**. Group formation is entirely at the students' discretion; however, **all group members must belong to the same college/institution**.
2. **Weekly Project Reviews:** Students are expected to attend and follow the instructions, guidance, and action items shared by the Project Manager during the weekly live project review sessions.
3. **Self-Paced Learning:** This is a **self-paced Live Project**, and no strict weekly deadlines have been assigned to accommodate students' academic commitments. However, students are strongly encouraged to maintain consistent progress and actively participate throughout the project to maximize their learning experience.
4. **Recommended Time Commitment:** Students should dedicate approximately **2-3 hours per week** to successfully complete the project and achieve the intended learning outcomes.
5. **Project Report Submission:** Upon completion of the project, students must prepare a comprehensive **Project Report** in either **Microsoft Word (.doc/.docx)** or **PowerPoint (.ppt/.pptx)** format for evaluation. There is **no prescribed page or slide limit**. Students are encouraged to demonstrate originality and creativity by designing their own report structure and presentation format.
6. **Project Completion & Certificate:** There is **no fixed deadline** for submitting the Live Project report. Students may submit their project at any time after completing all the required work. Upon successful evaluation, the **Live Project Completion Certificate** will generally be issued within **3-4 working days**.
7. **Project Selection:** Students may choose **any one of the available Live Projects**. Those enrolled in multiple project roles may either work on all projects simultaneously or complete them sequentially, based on their convenience.
8. **Group Submission Policy:** For group projects, all team members must work on a common project report. However, **each member is required to submit the report individually through their own LMS account** to be eligible for evaluation and certification.
9. **Submission Process:** **All project submissions will be accepted exclusively through the LMS Portal**. Reports submitted via email, WhatsApp, Google Drive links, or any other platform will **not** be considered for evaluation.

**PROJECT TOOLKIT****How to Start your Project (4-week Framework)**

Suggested weekly rhythm for planning, analysis, drafting, and final submission.

Week-wise Roadmap for Live Project Completion**Important Note**

The following roadmap is a **recommended four-week learning framework** designed to help students approach the Live Project in a structured and industry-oriented manner.

Since this is a **self-paced project**, students who wish to complete the project earlier are welcome to do so. However, they are **strongly advised to follow the same sequence of activities (Week 01 -> Week 02 & 03 -> Week 04)** to ensure a systematic learning experience.

Students may accelerate the pace of execution but **should not skip or rearrange any stage of the project workflow**, as each phase builds the foundation for the next.

Week 01 - Market Research & Company Understanding**Objective**

The objective of Week 1 is to develop a comprehensive understanding of the company, industry, customers, and business environment before beginning the project execution.

1. Project Selection

- Review the list of available Live Projects under your selected role.
- Select one project that you wish to work on as your Live Project.

2. Company & Market Research

Conduct detailed research on the company from multiple functional perspectives to develop cross-functional business thinking. This will help you understand how different business functions contribute to solving real-world problems.

Your research should include:

- Understanding the company's objectives and core offerings
- Company Analysis
- Product & Service Analysis

- Website Analysis
- Website User Experience (UX) Analysis
- Customer Segment Analysis
- Competitor Analysis

3. Business Framework Analysis

Based on your research findings, apply relevant business and strategic frameworks to understand the company's current position and future opportunities.

Suggested frameworks include:

- SWOT Analysis
- PESTEL Analysis
- Ansoff Matrix
- Any other relevant strategic framework applicable to your project

4. Digital Landscape Research

Evaluate the company's online presence and digital positioning by conducting research on:

- Official website and digital assets
- Social media platforms
- Brand visibility and customer engagement
- Existing marketing strategies
- Competitor social media analysis
- Market gaps and potential opportunities

Week 02 & Week 03 - Project Execution & Deliverables

Objective

The objective of this phase is to solve the assigned business problem by applying your research findings and analytical skills.

Students should:

- Work on the project objectives and deliverables specified for their selected Live Project.
- Perform additional market research wherever required.

- Conduct data analysis and interpret findings.
- Brainstorm and evaluate multiple solution approaches.
- Develop practical, research-backed recommendations.
- Continuously refine the project based on insights generated throughout the execution phase.

This stage should focus on demonstrating:

- Problem-solving ability
- Strategic thinking
- Practical business recommendations

Week 04 - Final Recommendations & Project Report Submission

Objective

The final week should focus on consolidating all your work into a professional project report.

Students should:

- Prepare the final project report in either **Microsoft Word (.doc/.docx)** or **PowerPoint (.ppt/.pptx)** format.
- Organize the report in a logical and professional manner.
- Compile all research findings, analyses, project outcomes, and supporting evidence.
- Present actionable business recommendations and implementation strategies.
- Review and proofread the report before submission through the **LMS Portal**.

The final report should clearly demonstrate:

- Research methodology
- Analytical thinking
- Business understanding
- Recommendations
- Overall project outcomes

Project 1

Growth & Market Penetration Strategy for Skilled Sapiens

Company	Skilled Sapiens
Role Category	Management
Project Role	Growth & Strategy Consultant

Project Brief

Skilled Sapiens has built a strong foundation in career development, leadership mentoring, and experiential learning through its Campus Connect and Business Connect initiatives. To achieve its next phase of growth, the organization aims to expand into new educational institutions and establish sustainable partnerships with schools, colleges, and universities.

As a **Growth Strategy Consultant**, your role is to research market opportunities, evaluate target customer segments, and recommend strategies that enable Skilled Sapiens to expand its reach while strengthening its institutional network.

Your focus will be on identifying growth opportunities, designing market penetration strategies, and recommending partnership models that support scalable and sustainable business growth. This is a research and strategy-focused project where the emphasis is on business analysis and strategic recommendations rather than execution.

Objectives

The objective of this project is to develop a comprehensive growth and market penetration strategy that supports the expansion of Skilled Sapiens into new educational institutions and customer segments.

Students are expected to:

Business Objectives

- Identify high-potential markets and institutional partnership opportunities.
- Evaluate different customer segments and prioritize expansion efforts.
- Develop market penetration strategies for schools, colleges, and universities.

- Recommend partnership and collaboration models.
- Propose pricing and value proposition strategies for institutional offerings.
- Develop a roadmap for sustainable business growth.

Learning Objectives

By completing this project, students will learn how to:

- Conduct market opportunity analysis.
- Develop growth strategies.
- Analyze customer segments.
- Design market penetration frameworks.
- Build partnership strategies.
- Recommend business expansion plans.

Action Items

Introduction

Skilled Sapiens has established a strong presence in experiential learning, leadership development, live projects, career mentorship, and business consulting through its **Campus Connect** and **Business Connect** verticals. The organization has successfully built relationships with students, MBA aspirants, working professionals, educational institutions, and corporate partners.

As the next phase of growth, Skilled Sapiens aims to expand its reach into new customer segments by strengthening institutional partnerships and increasing market penetration. One of the key strategic priorities is to build long-term collaborations with schools, colleges, universities, and educational institutions while leveraging its existing ecosystem of mentors, industry experts, and learning programs.

This project focuses on developing a research-driven growth and market penetration strategy for Skilled Sapiens. Students will work as **Growth Strategy Consultants**, identifying expansion opportunities, evaluating target markets, and recommending strategic approaches for entering new segments and strengthening institutional partnerships.

Suggested Research Areas

Students are encouraged to explore:

- Growth Strategy
- Market Expansion
- Market Segmentation

- Market Penetration Strategy
- Partnership Strategy
- Institutional Sales
- B2B Growth Models
- Customer Acquisition
- Pricing Strategy
- Business Development
- Education Industry Trends

Expected Learning Outcomes

By completing this project, students will be able to:

- Conduct market opportunity and customer research.
- Develop structured growth and market penetration strategies.
- Analyze institutional partnership opportunities.
- Recommend pricing and business expansion models.
- Design strategic roadmaps for sustainable growth.
- Define business growth KPIs and performance frameworks.
- Present consulting-style recommendations that support long-term business expansion and market leadership.

Deliverables

Deliverable 1: Market Opportunity Analysis

Conduct research on potential growth opportunities for Skilled Sapiens.

The report should include:

- Industry trends
- Growth opportunities
- Target markets
- Emerging customer needs
- Market attractiveness

Deliverable 2: Target Market Research

Identify and evaluate potential customer segments.

Possible segments include:

- Schools (K-12)
- Colleges
- Universities
- MBA Institutions
- Coaching Institutes
- Start-up Incubators
- Entrepreneurship Cells
- Corporate Organizations

Students should analyze:

- Customer needs
- Decision-making process
- Buying motivations
- Partnership opportunities

Deliverable 3: Market Penetration Strategy

Develop a strategy for entering and expanding within new markets.

The strategy should include:

- Target market prioritization
- Entry approach
- Institutional partnership strategy
- Outreach recommendations
- Customer acquisition approach
- Growth opportunities

Students may select one institution each from Tier 1, Tier 2, and Tier 3 and recommend suitable market entry strategies.

Deliverable 4: Partnership Strategy

Develop recommendations for building long-term institutional partnerships.

The report should include:

- Value proposition for educational institutions
- Partnership models
- Engagement strategy
- Relationship-building approach
- Long-term collaboration opportunities

Deliverable 5: Program & Pricing Recommendations

Recommend suitable program offerings for institutional partnerships.

Students should propose:

- Program structure
- Delivery model (Online/Hybrid)
- Subscription or institutional pricing approaches
- Value-added services
- Scalability considerations

The recommendations should balance affordability with long-term business sustainability.

Deliverable 6: Growth Roadmap

Develop a high-level roadmap for market expansion.

The roadmap should include:

- Short-Term Priorities (0-3 Months)
- Medium-Term Expansion (3-6 Months)
- Long-Term Growth Opportunities (6-12 Months)

Students should explain the rationale behind the proposed sequence of initiatives.

Deliverable 7: Growth Performance Framework

Develop a framework to measure business growth.

Suggested KPIs include:

- Institutional Partnerships
- Schools/Colleges Onboarded
- Leads Generated
- Partnership Conversion Rate
- Program Enrollments
- Customer Acquisition Cost (CAC)
- Revenue from Institutional Partnerships
- Customer Retention
- Referral Partnerships

Students may present the framework using Excel, Google Sheets, or presentation dashboards.

Deliverable 8: Strategic Recommendations

Prepare a final consulting report summarizing:

- Market research findings
- Target market analysis
- Growth opportunities
- Market penetration strategy
- Partnership recommendations
- Pricing recommendations
- Growth roadmap
- Expected business impact

Recommendations should be practical, research-driven, and aligned with Skilled Sapiens' long-term expansion strategy.

**Project 2**

Referral Growth Strategy for Skilled Sapiens

Company	Skilled Sapiens
Role Category	Management
Project Role	Growth & Strategy Consultant

Project Brief

Skilled Sapiens has developed a strong community of learners, mentors, educational institutions, alumni, and business partners through its experiential learning ecosystem. While this network continues to grow, there is significant opportunity to leverage these relationships to increase awareness, generate qualified leads, and drive program enrollments through referrals.

As a **Growth Strategy Consultant**, your role is to research referral marketing best practices, identify the most suitable stakeholder groups, and design a referral program tailored to Skilled Sapiens. Your recommendations should focus on creating a structured referral framework, improving stakeholder engagement, and developing performance measurement mechanisms.

This is a research and strategy-focused project where the emphasis is on designing a scalable referral program rather than implementing it.

Objectives

The objective of this project is to design a structured referral program for Skilled Sapiens that encourages existing stakeholders to recommend its programs and services while improving customer acquisition and brand advocacy.

Students are expected to:

Business Objectives

- Identify potential referral sources across the Skilled Sapiens ecosystem.
- Develop a referral program structure suitable for different stakeholder groups.
- Recommend referral incentives and engagement strategies.
- Design communication and promotion strategies for the referral program.
- Propose a framework for tracking referrals and measuring program performance.
- Recommend KPIs to evaluate the effectiveness of the referral program.

Learning Objectives

By completing this project, students will learn how to:

- Design referral marketing strategies.
- Analyze customer advocacy opportunities.
- Develop customer engagement programs.
- Create referral communication frameworks.
- Define referral performance metrics.
- Build consulting-style business recommendations.

Action Items

Introduction

Skilled Sapiens has built a strong ecosystem of students, alumni, mentors, industry professionals, college partners, and business clients through its Leadership Programs, Live Projects, Career Mentorship, Campus Connect, and Business Connect initiatives. These stakeholders represent a valuable network that can contribute significantly to the organization's growth through referrals.

A well-designed referral program not only reduces customer acquisition costs but also builds trust, increases brand advocacy, and generates high-quality leads. However, to maximize its effectiveness, the referral program must be backed by a clear strategy, targeted communication, appropriate incentives, and a structured tracking mechanism.

This project focuses on researching and designing a referral strategy for Skilled Sapiens. Students will work as Growth Strategy Consultants to identify referral opportunities across different stakeholder groups and develop a research-based referral framework that supports learner acquisition and business growth.

Suggested Research Areas

Students are encouraged to explore:

- Referral Marketing Strategies
- Customer Advocacy Programs
- Loyalty and Reward Programs
- Community-Led Growth
- Word-of-Mouth Marketing
- Customer Engagement Strategies
- Referral Funnel Design
- CRM and Referral Tracking

- Customer Lifetime Value (CLV)
- Referral Program Best Practices

Expected Learning Outcomes

By completing this project, students will be able to:

- Analyze referral opportunities across different customer segments.
- Design structured referral marketing programs.
- Develop stakeholder engagement and communication strategies.
- Create referral tracking and performance measurement frameworks.
- Recommend scalable customer acquisition strategies through referrals.
- Present research-backed consulting recommendations that support business growth and customer advocacy.

Deliverables

Deliverable 1: Referral Opportunity Analysis

Identify and categorize potential referral sources for Skilled Sapiens.

Possible referral groups include:

- Current Students
- Alumni
- Mentors
- Faculty Members
- Campus Ambassadors
- College Training & Placement Officers (TPOs)
- Working Professionals
- Entrepreneurs
- Startup Founders
- Corporate Partners
- Business Clients

For each group, identify:

- Referral potential
- Motivation to refer
- Preferred communication channels
- Suitable engagement approach

Deliverable 2: Referral Program Framework

Design a structured referral program for Skilled Sapiens.

The framework should include:

- Program objectives
- Target referral groups
- Referral process
- Referral journey
- Eligibility criteria
- Reward and recognition structure
- Referral communication plan

Deliverable 3: Referral Communication Strategy

Develop a communication strategy to promote the referral program.

Include recommendations for:

- Email Campaigns
- WhatsApp Communication
- Social Media Promotion
- Website/Landing Page Messaging
- Referral Invitations
- Success Stories
- Program Announcements

Students should also suggest sample messaging themes and campaign ideas.

Deliverable 4: Referral Tracking Framework

Recommend a simple system for tracking referrals.

The framework should include:

- Referral registration process
- Lead tracking stages
- Referral status updates
- Conversion tracking
- Reward tracking

Students may recommend using CRM tools, Google Sheets, or simple dashboard solutions.

Deliverable 5: Referral Performance Framework

Develop a measurement framework to evaluate program success.

Suggested KPIs include:

- Total Referrals Generated
- Active Referrers
- Referral-to-Enrollment Conversion Rate
- Cost per Referral
- Customer Acquisition through Referrals
- Repeat Referrals
- Referral Revenue Contribution
- Referral Program Participation Rate

Students may present the framework using Excel, Google Sheets, or presentation dashboards.

Deliverable 6: Strategic Recommendations

Prepare a final consulting report summarizing:

- Referral opportunity analysis
- Target stakeholder groups
- Referral program recommendations
- Communication strategy

- Tracking framework
- Success metrics
- Expected business impact

Recommendations should be practical, research-driven, and aligned with Skilled Sapiens' business objectives.

**Project 3**

Enhancing Program Development through Market Research & Strategic Data Analysis

Company	Skilled Sapiens
Role Category	Analytics
Project Role	Business Analyst

Project Brief

As a **Business Analyst and Market Research Consultant**, you have been assigned the responsibility of helping Skilled Sapiens make informed strategic decisions through structured market research and data analysis. Your role is to study the external market environment, understand customer behavior, evaluate competitor strategies, and identify opportunities that can support the organization's future growth.

Rather than designing or implementing new programs, your focus will be on generating meaningful insights that guide strategic decision-making. You will apply research methodologies, business analysis frameworks, and data interpretation techniques to understand changing industry dynamics and recommend practical improvements across product development, pricing, customer experience, and market positioning.

The final outcome of the project should provide Skilled Sapiens with a research-driven perspective on how its programs can evolve to meet future market needs while strengthening its competitive position in the experiential learning and consulting ecosystem.

Objectives

The primary objective of this project is to develop a research-backed understanding of the evolving education, consulting, and professional learning ecosystem to support the strategic growth of Skilled Sapiens. Students are expected to evaluate current market dynamics, identify emerging opportunities, understand customer expectations, and analyze competitor offerings to recommend improvements across program development, pricing, and market positioning.

Through this project, students will explore how data and market intelligence can be translated into actionable business recommendations that enable organizations to remain customer-centric, future-ready, and competitive.

Action Items

Introduction

Skilled Sapiens is an ISO-certified consulting and experiential learning platform committed to delivering industry-relevant Leadership Programs, Live Projects, Career Mentorship, Professional Certifications, and Business Consulting services. As industries continue to evolve with changing technologies, workforce expectations, and emerging skill requirements, it is essential that the organization's learning solutions

remain aligned with market demand.

Developing successful educational programs requires more than subject expertise—it demands a deep understanding of industry trends, learner expectations, competitor offerings, pricing strategies, and changing career aspirations. Data-driven market research enables organizations to make informed decisions regarding program design, customer experience, marketing, and long-term business growth.

This project focuses on conducting structured market research and strategic data analysis to identify opportunities for enhancing Skilled Sapiens' program portfolio. Students will work as **Business Analysts and Market Research Consultants**, collecting secondary research, analyzing industry data, benchmarking competitors, and developing strategic recommendations that support future program development and business expansion.

The project emphasizes research, analysis, and strategic thinking rather than implementation, enabling students to apply consulting methodologies to solve real business problems.

Suggested Research Areas

Students are encouraged to explore topics such as EdTech and professional learning trends, market research methodologies, competitor benchmarking, customer persona development, pricing strategies, learning experience design, skill gap analysis, business intelligence, strategic decision-making, and emerging technologies influencing the future of education and consulting.

Expected Learning Outcomes

Upon successful completion of this project, students will gain practical experience in conducting structured market research, interpreting business data, and transforming insights into strategic recommendations. They will learn how to evaluate industry trends, benchmark competitors, understand customer expectations, and support product and business strategy through evidence-based decision-making. The project will also help students strengthen their analytical thinking, consulting approach, business communication, and presentation skills while providing exposure to real-world market research assignments commonly performed by business analysts, strategy consultants, and product teams.

Deliverables

The primary objective of this project is to develop a research-backed understanding of the evolving education, consulting, and professional learning ecosystem to support the strategic growth of Skilled Sapiens. Students are expected to evaluate current market dynamics, identify emerging opportunities, understand customer expectations, and analyze competitor offerings to recommend improvements across program development, pricing, and market positioning.

Through this project, students will explore how data and market intelligence can be translated into actionable business recommendations that enable organizations to remain customer-centric, future-ready, and competitive.

Project Deliverables:

Market Research Report

Students will prepare a comprehensive market research report that provides an overview of the education, consulting, and professional upskilling industry. The report should identify emerging trends, high-demand skills, changing learner preferences, and evolving market opportunities. It should also examine the major factors influencing customer decision-making and highlight potential opportunities for Skilled Sapiens to strengthen its market position.

Customer Persona Framework

Students will develop detailed customer personas representing the primary audience segments served by Skilled Sapiens, including students, working professionals, entrepreneurs, and career switchers. Each persona should capture demographic characteristics, career aspirations, learning goals, challenges, motivations, preferred learning formats, and factors influencing purchasing decisions. These personas should provide a structured understanding of customer needs and support future product and marketing decisions.

Competitive Benchmark Analysis

Students will conduct a detailed comparative analysis of organizations operating in similar domains, including EdTech companies, consulting firms, and professional learning platforms. The analysis should compare competitors across parameters such as program offerings, pricing strategies, delivery models, mentorship support, certifications, marketing approaches, and customer engagement practices. Based on these findings, students should identify areas where Skilled Sapiens can differentiate itself and strengthen its competitive advantage.

Pricing and Learning Delivery Analysis

Students will research prevailing pricing models and learning delivery approaches adopted across the industry. This analysis should evaluate different pricing strategies, program durations, mentorship formats, live and self-paced learning models, certification structures, and technology-enabled learning experiences. Based on market findings, students should recommend suitable pricing and delivery approaches that align with the expectations of Skilled Sapiens' target audience.

Strategic Recommendation Report

Based on the research findings, students will prepare a strategic recommendation report highlighting key insights, opportunities, and actionable recommendations for Skilled Sapiens. The report should provide suggestions for future program development, product positioning, pricing strategy, learner engagement, and business expansion. Every recommendation should be supported by market research, industry trends, and customer insights.

Executive Summary Presentation

Students will prepare a concise executive presentation summarizing the research methodology, major findings, customer insights, competitor analysis, strategic recommendations, and expected business impact.

The presentation should be designed for senior management discussions and communicate the most important insights in a structured and professional manner.
